

Master: “NEUROMETABOLISM AND CELL BIOLOGY FOR CLINICIANS”

Dear Members of the “*Sociedad Neurológica Argentina*”

With great pleasure we invite your members to participate in the 2nd edition of the International Master's Degree in Neurometabolism, promoted by the University of Barcelona and Sant Joan de Déu Barcelona Hospital: "NEUROMETABOLISM AND CELL BIOLOGY FOR CLINICIANS".

The first edition was very well received by the academic community, we had the participation of 41 doctors and researchers from different parts of the world.

The Master's program will start in October 2024 and will last two years. It is online with an immersion face-to-face period during our Summer School.

One of its main objectives is to be a framework for a paradigm shift in the teaching of neurometabolism, as we intend to gather together, in a comprehensive and structured approach, the neurological manifestations, genetics, cellular pathways and cerebral circuits.

Attached in this email you will find the information brochure. This Master's degree program could be of great interest to your affiliates, we will be grateful if you would share it with them.

Please do not hesitate to contact us for further information,

Best regards,

Dr. A. García-Cazorla MD, Ph.D.

Head Neurometabolic Unit-Synaptic Metabolism Lab.

Department of Neurology. IPR, CIBERER and MetabERN

Director of of the international Master in Neurometabolism

and Cell Biology for Clinicians and the Research #BrainProject.

Assoc. Prof. UB; Full Prof. Accreditation AQU

Hospital Sant Joan de Déu, Barcelona

Dr. Juliana Ribeiro, Dr. Nazareno Lascano and Dr. Heidi Baide

Coordinators of the international Master in Neurometabolism

and Cell Biology for Clinicians, Barcelona University

Sant Joan de Déu Hospital, Passeig Sant Joan de Déu, 08950

08950 Esplugues de Llobregat Barcelona, Phone: +34 666884586
